

THE COVID-19 VACCINE

COVID-19 Vaccines are rolling out across the US, and within months it will be available to the general population.

The Benefits of Getting a COVID-19 Vaccine

We understand that some people may be concerned about getting vaccinated now that COVID-19 vaccines are available in the United States. While more COVID-19 vaccines are being developed as quickly as possible, routine processes and procedures remain in place to ensure the safety of any vaccine that is authorized or approved for use. Safety is a top priority, and there are many reasons to get vaccinated.

COVID-19 vaccination will help keep you from getting COVID-19

All COVID-19 vaccines currently available in the United States have been shown to be highly effective at preventing COVID-19. Getting vaccinated yourself may also protect people around you, particularly people at increased risk for severe illness from COVID-19.

COVID-19 vaccination is a safer way to help build protection

COVID-19 can have serious, life-threatening complications, and there is no way to know how COVID-19 will affect you. And if you get sick, you could spread the disease to friends, family, and others around you. Getting COVID-19 may offer some natural protection, known as immunity. Current evidence suggests that reinfection with the virus that causes COVID-19 is uncommon in the 90 days after initial infection. However, experts don't know for sure how long this protection lasts, and the risk of severe illness and death from COVID-19 far outweighs any benefits of natural immunity.

COVID-19 vaccination will be an important tool to help stop the pandemic

Wearing masks and social distancing help reduce your chance of being exposed to the virus or spreading it to others, but these measures are not enough. The combination of getting vaccinated and following CDC's recommendations to protect yourself and others will offer the best protection from COVID-19. Stopping a pandemic requires using all the tools we have available.

The safety of our employees is always our top priority but especially right now during these uncertain times. If you have any concerns, visit accustaffing.com/covid-19 to see what we are doing to help prevent the spread of COVID-19.
